

Citric Acid

Citric Acid

INGREDIENT(S):

citric acid

USE:

Cleaning of waterlines

SPECIES:

Beef Cattle, Dairy Cattle, Horses, Sheep

ROA:

dw

DOSE:

Maintenance: 500 g/1,200 L water.

USE:

Cleaning of waterlines

SPECIES:

Chickens, Swine, Turkeys

ROA:

dw

DOSE:

Maintenance: 500 g/1,200 L water.

Automatic proportioner: Set apparatus to distribute 30 mL/4 L drinking water (1 oz/gal U.S.). Prepare stock solution by dissolving 500 g/9 L water.

Cleaning lines: 750 g/610 L water.

Automatic proportioner: Set apparatus to distribute 30 mL/4 L drinking water (1 oz/gal U.S.). Prepare stock solution by dissolving 750 g/4.5 L of water.

Solubility aid: To increase solubility of Oxytetracycline and Tetracycline products for water medication: Use 5 parts:1 part Oxytetracycline or Tetracycline powder to be dissolved. For example, 500 g Citric Acid for each 100 g Tetracycline HCl to be dissolved in drinking water.
