

25-Hydroxyvitamin D₃ Powder

25-Hydroxyvitamin D₃ Powder supplement for **Chicken and Turkey** drinking water

ACTIVE INGREDIENTS: 375 mg 25-Hydroxyvitamin D₃ per kg (Reg # 982309), Citric acid.

VETERINARY
USE ONLY

Net Contents
1 kg

Registration #
982725

Indications:

25-Hydroxycholecalciferol, intended as a source of Vitamin D. For supplementation in poultry water systems only. Use as sole source of aqueous Vitamin D supplement.

Dosage and Administration:

Chickens and Turkeys

For layer, broiler and breeder drinking water supplementation: Prepare a concentrate by dispersing 100 g of 25-Hydroxyvitamin D₃ powder supplement in 7.6 L of fresh drinking water. Set the medicator to deliver 30 mL per 4 L of water (1 oz per US gallon). This concentrate will supplement 1013 L of drinking water at 37 µg 25-Hydroxyvitamin D₃ per L (equivalent to 1480 IU per L).

For turkey drinking water supplementation: Prepare a concentrate by dispersing 300 g of 25-Hydroxyvitamin D₃ powder supplement in 15.2 L of fresh drinking water. Set the medicator to deliver 30 mL per 4 L of water (1 oz per US gallon). This concentrate will supplement 2026 L of drinking water at 55 µg 25-Hydroxyvitamin D₃ per L (equivalent to 2200 IU per L).

Guaranteed Analysis (minimum): Equivalent to 15 000 000 IU Vitamin D₃ kg.

NOTE TO USER

Use only as directed. Prepare fresh mixtures daily.

STORAGE

Store at room temperature (15-30°C).

WARNING(S)

KEEP OUT OF REACH OF CHILDREN
