

# Multi-Phenolic Disinfectant

Detergent

ACTIVE INGREDIENTS: o-Phenylphenol 10.0%, o-Benzyl-p-Chlorophenol 8.5%, p-Tertiary Amylphenol 2.0%.

DIN 00872962

**DANGER – CORROSIVE.** Read the label before using.

Disinfectant combines the high detergent action of a general purpose cleaner with the action of phenolic disinfectant. It effectively cleans, disinfects and deodorizes food-processing facilities such as dairy facilities, slaughterhouses and meat packing plants, thus aiding in the prevention of disease caused by susceptible organisms.

## Directions For Use:

For all cleaning and disinfection use a 1:250 solution (4mL per 1 L or 0.5. oz per gal. of water). To increase detergency in heavily soiled areas use at a rate of 1:125 solution (8mL per 1 L or 1.0 oz. per gal. of water) or a 1:83 solution (12 mL per 1 L or 1.5 oz per gal. of water).

## PRECAUTIONS

1. Keep out of reach of children. Harmful if swallowed. Avoid skin contact. Particular care should be taken in handling the concentrate, including proper shielding of the eyes in case of splashing.
2. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes and other facilities occupied or traversed by animals.
3. Empty all troughs, racks and other feeding and water appliances.
4. Saturate all surfaces with accepted disinfectant solution.
5. All treated equipment including food contact surfaces must be thoroughly scrubbed with detergents and rinsed with potable water prior to re-use.

## Toxological Information:

The concentrate is corrosive to tissues. The Oral LD<sub>50</sub> is 3.73 g/kg.

## FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. If eye irritation persists, get medical attention. If accidentally swallowed, do not induce vomiting, but drink large quantities of fluid and call a physician immediately.

## WARNING(S)

**KEEP OUT OF REACH OF CHILDREN**
